\*Listed in alphabetical order. Holdings are subject to change without notice.

\*\* Fannie Mae and Freddie Mac consists of the Federal National Mortgage Association and the Federal Home Loan Mortgage Corp.

1. Inception Date: August 31, 2009.

2. The Barclays Capital U.S. Corporate High Yield Index comprises issues that have at least \$150 million par value outstanding, a maximum credit rating of Ba1 or BB+ (including defaulted issues) and at least one year to maturity.

3. The CS Leveraged Loan Index is designed to mirror the investible universe of the \$US-denominated leveraged loan market. Loans are added to the index upon issuance according to the following criteria: (1) Loans must be rated "5B" or lower. That is, the highest Moody's/S&P ratings in the index are Baa1/BB+ or Ba1/BBB+. If unrated, the initial spread level must be Libor plus 125 basis points or higher. (2) Only funded term loans are included. (3) The tenure must be at least one year.

4. The SEC Yield is based on imputed income of all holdings.

**Past performance is no guarantee of future results; returns include reinvestment of all distributions. The above represents past performance and current performance may be lower or higher than performance quoted above. Investment return and principal value fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost.**

**The Fund is no longer offered for investment and does not have a prospectus. The fund is in the liquidation process and shareholders are not being charged a management fee.**

1. Restructurings: debt securities of companies that are not currently making their debt service payments and have either entered into bankruptcy proceedings or are expected to do so in the near term.
2. Equities: Common and preferred stocks purchased, common stock received in a debt-for-equity exchange.
3. Includes receivables and payables.
4. Credit ratings for each security provided by Standard & Poor's. Credit ratings are forward-looking opinions about credit risk. Standard & Poor's credit ratings express the agency's opinion about the ability and willingness of an issuer, such as a corporation or state or city government, to meet its financial obligations in full and on time. Ratings are expressed on a scale from "AAA" to "D", where "AAA" signifies the highest confidence in the issuer's capability to meet financial commitments, and "D" signifies an issuer that is in payment default.
